PROFESSIONAL SUMMARY

Computer Science undergraduate at ITU (2023–2027) with hands-on industry experience building full-stack web applications at Arbisoft. Skilled in React.js, Node.js and MongoDB, with additional exposure to ML/NLP pipelines and AI integration. Passionate about writing clean, scalable code and delivering user-centric digital products.

PROFESSIONAL EXPERIENCE

Web Developer Intern | Arbisoft

Jul 2025 – Sep 2025

- Contributed to production-grade web applications within a professional agile team, following industry best practices for clean and maintainable code.
- Built a responsive full-stack expense tracker with real-time data updates and a scalable backend architecture.
- Collaborated in sprint cycles, participated in code reviews and delivered features on schedule in a structured engineering environment.

PROJECTS

AI-Integrated Project Management Web Application

- Developed a full-stack web app enabling users to plan, assign and track project tasks efficiently.
- Integrated an AI assistant to provide context-aware task suggestions and workflow optimisation recommendations.

Web-Based Expense Tracker Application

- Designed and built a responsive expense tracking system featuring real-time data updates and a clean, intuitive UI.
- Implemented CRUD operations for expense entries with category filtering and summary views.

Intersectional Cyber-Targeting Detection in Roman Urdu

- Built an end-to-end ML pipeline covering data scraping from Twitter/X, text preprocessing, and manual annotation.
- Developed a multi-label NLP classifier for cyberbullying detection in Roman Urdu using TF-IDF with SVM, Random Forest, Logistic Regression and XGBoost, evaluated via F1-score.

Personal Portfolio Website

- Built a fully responsive portfolio in React.js with Material UI, showcasing projects, skills and experience.
- Applied reusable component architecture, React Router navigation and dynamic layout design for a modern look and feel.

SKILLS

Frontend	React.js, HTML5, CSS3, Material UI
Backend	Node.js, Express.js
Languages	JavaScript, Python, C++
Database	MongoDB, Firebase, Supabase

ML / AI	TF-IDF, SVM, Random Forest, XGBoost, Logistic Regression, AI API Integration
Other	Authentication & Security Git & GitHub

EDUCATION

Bachelor of Science in Computer Science	Information Technology University (ITU), Lahore	2023 – 2027
<i>Relevant Coursework: Programming Fundamentals, OOP, Data Structures & Algorithms, Design & Analysis of Algorithms, Operating Systems, Artificial Intelligence, Theory of Automata, Machine Learning (TOA and ML expected to end in first week of July 2026)</i>		
FSc Pre-Engineering	Punjab Group of Colleges	2021 – 2022
